SuttonI have a home in Baja and love to explore and fish, so this book is extremely helpful when planning expeditions. This almanac is head and shoulders above everything else that I have seen out there. I was shocked to see that this seller is offering used books for \$89, so I set out to find NEW publications and was delighted when I found the 2009 publication for \$24.95 plus \$3 flat-rate shipping - USPS Priority Mail.If you want great maps and the latest edition, you can find them the way I did.I first went here -- [...], which led me here -- [...] which provided me with this phone number -- (800) 727-2252.0 of 0 people found the following review helpful. The Best Maps of Baja, period!By A CustomerI bought the Norte and Sur map books a few years ago. They are excellent. Simply the best maps of Baja. Easy to use, a wonderful legend, and I love the book format, no need to fold up the map.If you can find them, buy them. Especially if you plan on driving Baja.8 of 8 people found the following review helpful. Best Map of BajaBy A CustomerI purchased the new most current almanac edition 2003 being sold here. It has both Northern and Southern Baja in one almanac, so I don't need two almanacs anymore. This is by far the most up-to-date detailed map of Baja available on the market.
