wantedBy D. MarentetteTried to pick these maps up from AAA but they don't carry them any more. These maps give
you the detail you want and are high quality.6 of 6 people found the following review helpful. Planning a Baja bike
tripBy Big-DI needed a good map to take with me into Mexico while on my way to Cabo San Lucas by motorcycle. I
use a GPS, but past experience has taught me GPS cannot be fully trusted in Mexico. Maps are usually much more
reliable, especially if you find yourself lost or unaware of your surroundings. This map is probably the best you can
buy for traveling Baja.
