James Kavanagh, Waterford Press : Banff National Park, Field Guide to: A Folding Pocket Guide to Familiar Species (A Pocket Naturalist Guide) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Banff National Park, Field Guide to: A Folding Pocket Guide to Familiar Species (A Pocket Naturalist Guide):

1 of 1 people found the following review helpful. disappointing By Richard Farley Nothing very detailed or exciting about this field guide. It really is just a well-made durable brochure with some poorly illustrated animals and flowers on it. I imagine there will be as good or better information on any of the park signs. Disappointed even though it wasn't very expensive. 0 of 0 people found the following review helpful. Must Have for Canadian Trip! By Elaine M. Used on our Road Scholar trip to Canada via The Rocky Mountaineer. Glad we got it ahead of time even though they were sold there. We could study it prior to our trip and know what to look for. This was a must take for sure. Small, colorful, fact full, and lightweight to pack. 1 of 2 people found the following review helpful. We had a nice trip By Beaglebelle This was fun to take along on our car trip to Banff. We saw lots of the animals, It was nice to know ahead of time what we could see along the highway.

A UNESCO World Heritage Site, Banff National Park spans three eco-regions and is home to 56 mammal species and over 275 bird species. Visitors to Banff National Park Wildlife will appreciate this pocket-sized, folding guide. Beautifully detailed illustrations highlight over 130 familiar species of birds, mammals, trees and wildflower. This guide also features an area map of the park for quick reference. Laminated for durability, it is the ideal guide to enhance your Banff National Park experience. Researched in collaboration with the Friends of the Banff National Park, a portion of the proceeds from the sale of this guide support the work of this important organization.

About the Author Zoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, Kavanagh's path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a series of state-specific guides to common species and natural attractions and a children's book on evolution. With 650+ titles in print and 6.5 million copies sold, Waterford Press publishes the largest line of folding-format reference guides in the industry. Our mission is to connect people to the natural world by making knowledge about wildlife identification, outdoor recreation, travel, and safety and survival skills accessible to a wide audience.
