Christopher Kendris, Theodore Kendris : Barron's Foreign Language Guides: 501 Spanish Verbs (Book CD-ROM) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Barron's Foreign Language Guides: 501 Spanish Verbs (Book CD-ROM):

197 of 197 people found the following review helpful. Kindle Edition By Marty Chicago I've owned 501 Spanish Verbs

paper edition for years and found it very helpful. When it looked like it was formatted for Kindle I bought that one too. It's good but it has some flaws. The complete introductory grammar discussion is easy to read. The "501" verbs are easy to access and easy to read. But the other two indices have been a problem. In the paper book you can use the English Spanish verb index to look up English verbs, find the equivalent in Spanish and see where the conjugation is. Also you can use the 2,200 verb index to look up Spanish verbs not included in the 501 for a short definition and a similar 501 dictionary entry to help you conjugate it. In the Kindle edition it's easy to use the Table of Contents to get to the first page of these indices. But to actually use them you would have to page through, page by page, until you found the word you want. There's no way to search for anything except the 501 verbs. I got around this problem by creating a "Note" at the beginning of each letter in the two indices. When I want to look up an English verb, I "View Notes Marks" and can page through quickly to the right area. What the book really needs is two more searchable "dictionaries". I hope that if it's ever developed the upgrade will be available to us, the pioneer users. Note: I've made my Notes public so you may be able to use them to access these indices with having to enter them yourself.

2 of 2 people found the following review helpful. Super helpful reference book for any level of Spanish
By Aria Scarlett
Super helpful reference book for any level of Spanish! This is my seventh year of study and I find this indispensable, as does my brother, who is in his second year. This contains all the tenses, forms, moods you'll ever need for darn near every verb, and for the verbs that aren't listed, there's usually a reference to a similar verb (eg, obtener would direct to tener). The included audio CD is a nice touch... it's useful for review and for jogging your memory (helpful to listen to in the car while driving to an exam, for example) but not as helpful for learning a new form. Suggestion: you may wish to find a hardcover copy, because if you intend to use this book for a while it gets tattered pretty quickly.

4 of 4 people found the following review helpful. One of the most ESSENTIAL books a student of Spanish can own
By BVSC fanatic
For an English speaker learning Spanish, this book is not only helpful, but ESSENTIAL. The very heart of the Spanish language is its very complex verb structure. The intricate interplay between the pronouns and the verbs form the very powerful linguistically elegant core around which the rest of the language wraps itself. The rest is window dressing. Tackle the verbs and the pronouns, and you are essentially home free. English verbs are far less structured, far less precise, and almost never mastered by English speakers. In Spanish, the SUBJUNCTIVE MOOD is a VITAL element that is used extensively. It's nearly impossible to utter three sentences without making use of it. And, yet, in English, the subjunctive is nearly deceased. Spanish speakers KNOW their verbs. They have to. And you must too, if you are going to master Spanish. And this book is your best road map toward mastery of Spanish verbs.

The Worlds Best Selling Verb Book and with good reason! Fluency in Spanish starts with knowledge of verbs and Barrons 501 Spanish Verbs shows students and travelers exactly how to use the 501 most common and useful Spanish verbs in all 16 tenses and moods. Each verb is alphabetically listed in easy-to-follow chart form, one verb per page with its English translation. Important added features include Formation and usage of Spanish verb tenses and moods summarized as they relate to their English equivalents The 55 most essential Spanish verbs specially highlighted and supplemented with sample sentences and related words and expressions Progressive forms of Spanish verbs Formation of present and past participles Passive and active voice formations Principal parts of important Spanish verbs Sentences demonstrating Spanish verb usage in all tenses with English translations 26 sets of exercises in Spanish verb usage with answers explained Two-color type for ease of reference A-to-Z page edges marked in second color for quick reference to verbs Plus enlightening appendixes that cover Defective and impersonal verbs A guide to Spanish pronunciation Verbs used in weather expressions Verbs with prepositions An index of common irregular Spanish verb forms English-Spanish verb index List of more than 2,100 Spanish verbs! Every verb on the list is related to a model verb that's conjugated in the same way. Enclosed with each book is a brand-new CD-ROM filled with Sentence completion exercises Dialogue exercises Word Completion exercises Word Puzzles Matching Spanish and English phrases Unlike software enclosed with verb books from other publishers, Barrons CD-ROM concentrates exclusively on teaching verb usage that applies to reading, writing, and speaking in Spanish. The instructive and fun-to-do exercises and puzzles come with an audio option that demonstrates correct Spanish pronunciation. Barrons CD-ROM is also more adaptable than the others because you can download it on any PC or Mac.

501 Spanish Verbs plus CD-ROM a great language learning program! It's an invaluable classroom supplement for students and teachers, a self-teaching guide for international travelers, and a handy reference volume for translators. Students quickly discover that learning Spanish becomes easier with this book/CD-ROM combination because it teaches verbs and verb usage systematically. In addition to the 501 verb tables, the authors have provided a wealth of additional features that will help students develop a truly comprehensive command of Spanish for speaking, reading, writing, and listening comprehension. There's a reason other publishers imitate 501 Spanish Verbs. After almost 50 years on the market, Barrons verb books are still the best! Choose the original!
