Thank You!!! 14 of 15 people found the following review helpful. Great book By Dorm Room Shopper This is a great book for those who know nothing about orienteering or those who need a refresher course.

Very easy to understand and contains great tips for compass work out in the field or on the lake. Not as in depth as it could be, but definitely enough to get you where you need to go and back safely.

BASIC ILLUSTRATED MAP AND COMPASS Wilderness guide Cliff Jacobson created the map and compass curriculum for the Minnesota Department of Natural Resources, and here he shows easy-to-follow steps on choosing a compass, reading contour lines and other map features, using them in concert with a GPS receiver, plotting a course in the wilderness, navigating at night by the stars, and much more.

From the Back Cover Richly illustrated and information-packed tools for the novice or handy reference for the veteran, **BASIC ILLUSTRATED** books distill years of knowledge into affordable and visual guides.
