These maps are awesome, even if you are just looking for some hiking opportunities anywhere in eastern Massachusetts (not just the Bay Circuit Trail).Larry Garland is an amazing cartographer, and this is perhaps his finest work.Can't wait to knock off more sections of this amazing trail.

The Bay Circuit Trail Map Guide is the essential day-hiker's companion to the 200-mile-long trail and greenway encircling Boston. Extending through 34 towns, this outer Emerald Necklace stretches from Plum Island in the north to Kingston Bay in the south. Within a stone's throw for millions of people in eastern Massachusetts, the trail and greenway is ideal for hiking, biking, snowshoeing, and cross-country skiing. This guide the first trail-friendly, waterproof map and guide to the entire BCT features three easy-to-use topographical maps. Included are more than 30 multiuse trip suggestions, safety tips, natural and cultural history sidebars, and more. Scale and parking identification allow for easy navigation to trailheads. These maps are based on highly accurate digital trail data compiled by AMC's staff cartographer. Also Available:
