If you're considering a move to Ecuador, this is probably the first book you should read prior to exploring the

country ~ 5 starBy Expressed ReviewsIf you're considering a move to Ecuador, this is probably the first book you should read prior to exploring the country. It provides detailed information on all aspects of Ecuador, both the good and the bad. In addition, there are many links to external websites that provide a plethora of additional information. In that regard, purchasing the Kindle version is a better choice, as you can simply click the links in the book, and be redirected to the other sites.Moving to another country can seem like a daunting task, especially when you don't speak the native language. I found this book especially helpful in assuaging my fears. Although it's yet to be determined whether or not my wife and I will be moving to Ecuador, this book has certainly made the process of exploring the possibility a whole lot easier.

Learn how to move, live, work, and retire in the most affordable country in South America! discover if Ecuador is for you and wade through all of the fluff with this no nonsense fun loving guide. Enjoy the expat stories that are peppered throughout. Our guides are known for their accuracy, thoroughness, and easy to read style. As an avid world traveler, Enete has visited over 35 countries, has lived in five, and continues to explore new ways of living. 8x author Enete shares her experiences and lessons learned teaching how to successfully save money and live the rich life.
