However, the print is small and in a dark grey typeface, so it was impossible to use in the evening by streetlight--exactly when you'd be most in need of a map to help you home. Sights, museums, and such are listed only in German, which is something to consider if you don't speak German. This made it difficult On the plus side, the streets are all labelled (not the case with the map my travelling companion brought). 0 of 0 people found the following review helpful.
