StarsBy chris carterworkt35 of 36 people found the following review helpful. helpful for traveling abroadBy A CustomerI am a student, who is traveling to belgium and the netherlands this summer, so i thought i would learn some french and dutch basics. the berlitz dutch phrase book is quite helpful for someone who only speaks english fluently and some spanish. it gives pronunciation guides with each word, which is quite helpful considering how difficult each phrase looks upon first glance. Once you learn a bit, you start seeing the similiarities between english and dutch, which help you remember it in the long run. it includes basic expressions/accomodations, eating out, travel, sightseeing, stores services, health, reference, and dictionary sections. another helpful tool would be to get the accompanying cassette tape, which lets you hear the pronunciations and helps you learn better, although they speak a little fast for the basic beginner.

Whether you're in one of Amsterdam's koffieshops (cafes) or in a Gouda cheese shop, you'll converse easily, intelligibly, and comfortably with native speakers. Perfect for both business travelers and vacationers, this easy-to-use, color-coded book contains the phrases you need to communicate with confidence and travel with ease. The Berlitz phrase book is the unparalleled market leader in its category.
