Berlitz : Berlitz German Phrase Book Dictionary before purchasing it in order to gage whether or not it would be worth my time, and all praised Berlitz German Phrase Book Dictionary:

It's small and fantastic for quick references, culture tips, needed phrases, and most of all, knowing what the countries food is all about :) It's not good for becoming fluent in the language - you'll probably want a text book, audio CDs, and computer programs for that. THIS book is small enough to travel with and provide

you with pronunciation guidelines and what to say to someone in a pinch. Plus, it's \$9.00 - you can't go wrong!1 of 1 people found the following review helpful. Excellent preparation prior to travelBy B. OberoiI would highly recommend this little book to prospective travelers to any German speaking country. Travelers who had some German in high school or college would especially benefit from it since the book helps with a lot of words and phrases which the older text books never had: at the bank (ATM), at airport check-in and security, etc.0 of 0 people found the following review helpful.
