Hello KoreaBy JmoriHandy guide to South Korean for the tourist, covers major phrases needed for travel, booklet and CD included1 of 1 people found the following review helpful. Excellent!By CleandroThis product delivers what it claims. The presentation is very pleasing to the eyes. Clear fonts, nice layout and the CD is a very nice extra. Especially considering the price. I only wished that bigger phrase books existed. I think this book is suitable to a broad audience. It just depends on how you use it. You can buy it for fun (as it is cheap) to impress some Korean friends, but more serious learners, who already know the basics of Korean could use it as well. As a supplement to improve their conversational skills. This phrase book is definitely a good rival to the one from Lonely Planet. And this one comes with a CD.1 of 1 people found the following review helpful. yeah!! go berlitzBy Roy Atwoodawesome, friendly happy go lucky I don't know what to say, but it works

A fresh, crisp new design re-launches this perennial bestseller. More user-friendly thanks to improved color-coding, new categories and updated CD and with user-generated content, this is the phrase book created by the people for the

people.
